

Assessment 8
Final Project
Technology Infused Strategic Plan

The final project will be a technology plan that will be created for a classroom, grade level or individual school. The focus will be to prepare a comprehensive plan that will be presented to a board of education to either enhance or replace existing infrastructure. Hardware and software technologies must be addressed as well as training for students, teachers, administrators and an external audience (PTO, Board members, the general public). The final deliverable will be a paper, based in current research that outlines the plan as well as the presentation. Equitable access must be addressed, as well as assistive technologies.

Activity	1	2	3	4
Technology Infused Strategic Plan	Minimal attempt, incomplete, does not meet deadlines	Lacks depth, meets all components at a basic level	Shows a thorough understanding of all components. Uses technology correctly	Meets all requirements, exhibits the ability to use and coach technology.
Research is evident through the citations and supporting materials.				
An overall vision of the scope is developed.				
Needs assessment is conducted with a before and after scenario set.				
Costs and justifications are evident based on research.				
Funding strategies, shared services and grant opportunities are evident.				
An implementation plan is included,				
Completed plan is professionally created and submitted on time.
